Compass is a web-based student management system which you can access in two ways:

- through the **Parent Portal**, on any web browser on your computer/device, or
- through the **Compass School Manager app**, available on any mobile device.

Instructions for using both the portal and the app are included below.

Each parent/carer will receive a unique login username and temporary password via email. You will be prompted to change your password when you first log in. It will also ask you to verify your mobile number and email address. We encourage each parent to log in and see your children's school activities, attendance, achievements, school communication and news.

Please note that the login letter was sent to the email address registered in the school's database. If one email address is connected to both parents, then this parent will receive two login letters.

If two emails were received to your email address, please ensure you check the name on the top of the letter and login individually using the respective login details to access Compass.

Welcome to the Compass Parent Portal

How do I access Compass through a web browser?

1. Use the Compass School link in the Login letter or go to <https://schools.compass.education/> and use the Compass School Search for your school name. (**Hint: type in the suburb for a quicker search**).

3. Click **Let's go!**

4. Enter your **Login** and **Password** details as noted in the letter. It will then ask you to verify your **Mobile Number** and **Email address**.
